

## Client News Bulletin

### **BWC Safety and Health Services**

At no added cost, BWC offers businesses comprehensive and valuable workplace safety and health services. The BWC's mission is to lower risks, making workplaces safer and healthier. BWC provides support for businesses to improve their bottom line by reducing workers' compensation costs.

#### **BWC is your partner in workplace safety and health**

Workers' compensation premiums include the cost of BWC safety services, so why not take advantage of the broad spectrum of offerings, tailored specifically to the needs of Ohio workplaces.

- **Consultation services:** Specialists in industrial safety, construction safety, industrial hygiene and ergonomics can visit your workplace and help tailor solutions to suit your needs.
- **Training center:** Offers 75 occupational safety and health courses in classrooms around the state, and six online courses
- **Library services:** Provides information, research and training aids
- **Safety councils:** 80 local safety councils throughout Ohio host monthly meetings promoting safety through informative talks and networking, presenting annual awards and offering premium rebates to eligible employers
- **Safety grants:** Grants and loans for purchasing equipment, creating a workplace wellness program and conducting drug-free workplace training
- **Video library:** A lending library of safety and health training videos
- **BWC Web site:** Online safety publications, tools and resources
- **Safety Congress & Expo:** Free, annual conference is the largest state conference of its kind

Remember to make safety and health activities routine considerations rather than crisis responses.
