

9/20/17

In the FY2017 CoC Competition, the Ohio Balance of State Continuum of Care (OH-507) encouraged existing transitional housing providers to convert their projects to higher performing PSH or RRH projects through the reallocation process. WSOS Community Action Commission applied for conversion to a new RRH project to serve individuals and families, and Community Action Commission of Fayette County applied for conversion to a new PSH project dedicated to serving the chronically homeless. Both projects were approved to move forward in the competition and apply for new project funding.

Zanesville Metropolitan Housing Authority notified the BoSCoC on August 8, 2017 that they would not be renewing their *Zanesville Metropolitan Housing Authority (ZMHA) Shelter Plus Care TRA Program* grant. The BoSCoC Board decided to reallocate the funding from this project to the funding request for the new Ohio BoSCoC Rapid Re-Housing project application- if funded, this new project will expand RRH resources to individuals and families across the 80-county Ohio BoSCoC.

The documents in this attachment, including the 2017 CoC Competition and Timeline, competition training webinars, Board meeting minutes, and listserv messages demonstrate the efforts taken by the BoSCoC to reallocate funding to high performing projects.
