Rapid and Streamlined Entry Into Housing

- Create a straightforward application process
- Examine who can really get in
  - Does your program serve the homeless of your community today?
  - Are your entrance criteria as open as possible? When was the last time you look at the rapid and streamlined entry into housing program?

Supportive Services are Voluntary

- Participation in services is not a condition of tenancy
- Services are voluntary for tenants... not for staff.
- Staff must work to build relationships with tenants
- Emphasis should be on user-friendly services driven by tenant needs and individual goals

Rapid and Streamlined Entry Into Housing

- Applicant process
- Does an applicant get enough information to understand how this PSH will help them stay housed?

- Condition of tenancy, tenants participate as high rates.
- Tenants value the services available to them, as well as the autonomy
- "Low demand" model is much more likely to house and retain formerly homeless
What Harm Reduction is Not

- Neither for or against drug use
- Consent to use
- Don’t use, don’t tell
- Anything goes
- Anti-abstinence
