Ohio | Department of Medicaid

Ohio Medicaid Priorities

Maureen M. Corcoran
Director of the Ohio Department of Medicaid

Coalition on Homelessness and Housing in Ohio
Housing Ohio Conference
April 9, 2019

As a nurse, I want everyone we serve to have high quality health care with systems, financing and care that is designed and aligned to meet individuals' needs. I want the legislature and others in the community to trust our stewardship of this great responsibility.

- Director Maureen Corcoran

DeWine Administration Policy Initiatives: Investing in Recovery

- Collaborate with the RecoveryOhio initiative, the Department of Mental Health and Addiction Services, the Department of Health, and other state and local entities to strengthen access to care and improve outcomes

- 1115 Substance Use Disorder Services Waiver

Percentage of Medicaid Recipients who received Behavioral Health Services in SFY 2018

- Only 36.64% of Ohio's mental health needs are met by current treatment capacity

- Approximately 26% of Ohio Medicaid recipients receive behavioral health services

  » 23% of Medicaid children

  » 29% of Medicaid adults

1115 Substance Use Disorder Services Waiver

- Continued federal financial participation for SUD services

- Significant enhancements to Medicaid's care coordination services

- Improve clinical consistency while measuring service outcomes and performance

- Potentially improve care for pregnant women with opioid use disorder and their infants

DeWine Administration Policy Initiatives: Sustainability, Quality, and Access

- Procurement of new managed care contracts

- Medicaid expansion work and community engagement requirements

- Modernizing Medicaid's pharmacy program and implementing a unified preferred drug list

DeWine Administration Policy Initiatives: Sustainability, Quality, and Access

- Program performance, accountability and sustainability
  - » Increasing the Managed Care Withhold
  - » Updating Medicaid's Forecast
  - » Eliminating Rate Increase for Nursing Facilities
  - » Updating the Member-Month Reconciliation Process
  - » Enhancing Program Integrity
  - » Enhancements to Clinical Programs and Interventions

Benefits of Managed Care

- ✓ Add competition to the Medicaid program

- ✓ Provide benefits of care coordination

- ✓ Give individuals more choice

- ✓ Pay for value and move away from volume-based model

- ✓ Create budget predictability in the system and mitigate volatility in the market

- ✓ Additional services that address health and well-being

Data and Technological Innovation

- Create an integrated data environment that encompasses a data lake and Medicaid Enterprise Data Warehouse to enhance data sharing, analytics and collaboration among state agencies and stakeholders

- Pursue the use of Electronic Health Records (EHR) to enable enhanced predictive analysis to help measure and track the quality of health care services by using near real-time clinical data

- Implement a best-in-class Ohio Medicaid Enterprise System (OMES) to replace the current Medicaid Information Technology System (MITS) and add additional functionality

Ohio | **Department of Medicaid**

We look forward to working with individuals, advocates, and partners to better serve all Ohioans and future generations.
