Coordinated Entry Definition

Coordinated Entry (CE), also known as coordinated intake, coordinated systems, or coordinated assessment is a process or system that coordinates entry into, movement within, and ultimately exit from a homeless system. Coordinated Entry processes increase the efficiency of a homeless assistance system by standardizing access to homeless services.
Coordinated Entry Key Elements

- Prioritizes households with greatest needs
- Includes projects that serve all households types & target populations.
- Easy to access through street outreach, hotlines, and physical locations
- Standardizes assessments that are person-centered
- Fair & equal referral process
- Lowers barriers to entry & uses a Housing First approach to enrollment & service delivery.

Vulnerability Index - Service Prioritization Decision Assistance Tool

- The VI-SPDAT is a survey administered to people experiencing homelessness to help determine severity of need and make prioritization decisions for housing resources.
- The VI-SPDAT is the official common assessment tool of the Ohio BoSCoC.
- Only those who have completed training should complete the VI-SPDAT with clients.

Tools in the VI-SPDAT series:

- VI-SPDAT for Single Adults
- VI-F-SPDAT for Families
- TAY-VI-SPDAT for Youth

When to Complete the VI-SPDAT

The VI-SPDAT is completed no sooner than 5 days after shelter entry and no later than 8 days after entry.

There are exceptions to the wait period for:
- Youth
- Unsheltered Populations
- Previously Homeless

VI-SPDAT V3

- If a VI-SPDAT V2 has already been completed and is current (meaning done within last year), you do not need to re-complete it using V3
  - Note: Major changes in the person’s life still require a new VI-SPDAT to be completed, and you could completed versus V3 in this case
- V3 takes about the same amount of time to complete as V2
- Scoring recommendations have not changed
  - Note: Providers are still encouraged to review and consider information beyond the VI-SPDAT score when making prioritization decisions
