

# **Ohio Balance of State Continuum of Care FY2021 CoC Competition – Acceptance of Renewal and New Projects**

## **Purpose of this Listserv Message**

This listserv message informs CoC members that all renewal and previously approved new project applications will be accepted and ranked as part of the consolidated CoC Application.

## **Target Audience**

CoC-funded projects in the Ohio BoSCoC, including organizations that were approved to submit new project applications.

## **Background**

As part of FY2021 CoC Competition, HUD requires CoCs to inform project applicants in writing, outside of e-snaps, of project application acceptance, rejection, or funding reduction.

## **Ohio BoSCoC FY2021 CoC Project Applications Acceptance and Ranking**

As previously communicated, all renewal CoC projects were permitted to submit renewal applications and those have been accepted for inclusion in the CoC Consolidated Application to HUD, even if the e-snaps application is still in process. No renewal project applications will be rejected or reduced (except for projects that are voluntarily reducing funding requests). CoC staff will rank all renewal project applications in the project listing in e-snaps in the rank order the CoC Board will approve on 11/8/21, which will be communicated to CoC members and posted on the CoC website at that time. As previously communicated, projects will be ranked in order based on project evaluation results; the Preliminary Project Ranking was posted on the Ohio BoSCoC website on 9/3/21 and can be found here - <https://cohhio.org/boscoc/coc-program/>. As outlined in the Ohio BoSCoC CoC Competition Plan and Timeline document available at <https://cohhio.org/boscoc/coc-program/>, the CoC Board may consider re-ranking projects that fall into Tier 2 of the project ranking, based on the Project Ranking Goal and Priorities. Final project ranking/listing will be approved by the CoC Board on 11/8/21 and will be communicated to CoC members and posted to the CoC website at that time as well.

As previously communicated, all new CoC project applications previously approved by the CoC Board, CoC Bonus and DV Bonus, were permitted to submit project applications in e-snaps and those will be accepted for inclusion in the CoC Consolidated Application to HUD, even if the e-snaps application is still in process. No previously approved new project applications will be rejected or reduced. CoC staff will rank all new project applications in the project listing in e-snaps in the rank order the CoC Board will approve on 11/8/21.

CoC staff will notify the CoC once the final Consolidated CoC Application has been posted to the COHHIO website for review prior to submission to HUD.

## **Questions**

Questions about this listserv message can be directed to Erica Mulryan, CoC Director, at [ericamulryan@cohhio.org](mailto:ericamulryan@cohhio.org).
