HIC/PIT Count Federal Requirements

HIC
An annual housing inventory count which provides an overview of a community’s homeless program inventory

PIT
A count of sheltered and unsheltered homeless persons for communities that receive federal funding
How HUD Requirements are Implemented

County Contacts and Providers → Collect and submit county level HIC data to the CoC → Ohio BoSCoC → COHHIO reviews, compiles and submits the data to HUD.

Role of Providers in HIC/PIT Count

HMIS Participating Projects review and update HIC information for their project(s) and submit significant updates/changes to COHHIO.

Select Communities involved Unsheltered and All Projects conduct Sheltered PIT Counts.

Non-HMIS Participating Projects work with County Contacts to review and update HIC information as needed.
Role of County Contacts in HIC/PIT Count

- One County Contact per region
- Primary contact for all HIC/PIT correspondence
- Assists in HIC/PIT data submission for Non-HMIS Participating Projects

Agenda

- Ohio BoSCoC Organization and Guidance Document
- HIC/PIT Overview
- HIC Process
- General PIT Process
- Changes to 2022 PIT Process
- Additional Resources
2022 HIC Components

The HIC includes inventory and capacity information on all programs dedicated to serving homeless persons in a community, regardless of the source of funding. This includes:

- Emergency Shelters
- Transitional Housing
- Rapid Re-Housing
- Permanent Supportive Housing

Should EHV and/or any Vet projects be included?

The number and type of beds or units on the HIC represents the inventory available in the project on a typical day, not just those in use during the PIT Count (except for RRH).

The number of beds or units should not fluctuate monthly or weekly.
2022 HIC Data Collection and Review Process

• HIC data is entered in HMIS by COHHIO for all homeless dedicated projects in the BoSCoC for HMIS Participating and Non-participating projects.

• The Ohio BoSCoC will use current housing inventory information as entered in HMIS for most projects.

• COHHIO will post summary of current HMIS inventory for providers to review.

• COHHIO will also reach out directly to projects if updated HIC information is required.

For New Projects Only:

You will need to fill-out the New Project Form. Contact the HMIS Team for questions.

The New Project Form is located on the Ohio BoSCoC HMIS website at: http://hmis.cohhio.org/index.php?pg=kb&page&id=129

• Understanding how to view current housing inventory
• Reviewing and how to communicate project inventory changes/updates
• Time for any HIC/PIT questions thus far
Agenda

• Ohio BoSCoC Organization and Guidance Document
• HIC/PIT Overview
• HIC Process
• General PIT Process
• Changes to 2022 PIT Process
• Additional Resources

PIT Count Components

• A PIT Count provides data on the number and characteristics of people who are homeless in a community.
• A PIT Count must be an unduplicated count using statistically reliable methods.
• All BoSCoC communities must collect the basic HUD-required data but can collect additional data they deem as appropriate.
• A complete list of the types of data collected can be found in the Ohio Balance of State Continuum of Care 2022 Housing Inventory Count and Point-in-Time Guidance
PIT Count Components

Sheltered Count
• Emergency Shelters
• Transitional Housing
• Persons residing in hotels/motels (paid for by public or private organizations for purposes of providing emergency shelter)
• Extreme weather shelters/cold shelters
• Hotel/motel units or temporary shelters set up to facilitate de-concentration

Reminder: People in PSH and RRH are not included in the PIT Count but data for these projects must be recorded for the HIC.

Unsheltered Count
• This count includes persons who, on the night of the count, are living in a place not designed for or not ordinarily used as a regular sleeping accommodation for human beings.
• Includes persons staying in cars, encampments, or abandoned buildings.

PIT Count Data

The Ohio BoSCoC will use HMIS and Counting Us app to collect and report PIT Count data.

Sheltered PIT data

- HMIS Participating Projects - COHHIO will run reports on currently-entered data.
- Non-HMIS Participating Projects – will use the Counting Us app to complete PIT surveys with clients on the night of the PIT.

Unsheltered PIT data

- Continue to use Counting Us app
2022 PIT Count Collection App

All Ohio BoSCoC communities MUST use the free data collection app or web application “Counting Us”, which will be discussed and demoed during the PIT Count Training Webinar on December 16th.

Geographic Sampling

- An approach that involves conducting unsheltered PIT Counts in a select number of areas on the night of the PIT Count
- A CoC-wide unsheltered PIT Count is then generated from that sample of data

All communities are still encouraged to do unsheltered outreach on the night of the PIT Count.
Agenda

- Ohio BoSCoC Organization and Guidance Document
- HIC/PIT Overview
- HIC Process
- General PIT Process
- Changes to 2022 PIT Process
- Additional Resources

Known Locations Survey

- Will be used in advance of the count to identify potential high probability census tracts
- Helps identify up to date locations where you think you will find people experiencing unsheltered homelessness on the night of the PIT count
- County Contacts are responsible for identifying these areas
  - Nothing is required of specific projects for this
  - Work with County Contact if you are know of a location that should be submitted
- Known Locations surveys must be submitted in Counting Us app by Friday, December 10th
Known Locations Survey

End Result:

Service-Based Count

What is a service-based count?
- People experiencing homelessness who access social services (homelessness services, food pantries, soup kitchens, libraries, etc) are asked about where they slept on the designated PIT night.

When can it occur?
- Up to 7 days after the PIT night

- Communities are allowed to do service-based counts this year
- Work with County Contact to coordinate
- Must notify BoS staff of intent to do service-based count
