Description: (Session 2)- *Establishing a Solid Collaboration with the Local Homelessness Response System* – In this session, we recognize that system coordination is an integral part of addressing student homelessness. There is a delicate balance between the local homelessness system and education system. This session explores developing, strengthening, and sustaining multi-system coordination that addresses student homelessness through workshop learning. Attendees will be supported in discussing and barrier busting local coordination with a solutions focused approach.

Materials: The session will be recorded. A notification will be sent via email alerting participants when materials have been posted to the COHHIO Course to HOME webpage [here](#) for easy access.
