Community of Practice Norms

1. Treat each other with dignity and respect.

2. Differentiate between opinion—which everyone has—and informed knowledge, which comes from sustained experience, study, and practice.

3. Recognize how your social positionality (e.g., race, class, gender, sexuality, ability) informs your perspectives and reactions.

4. Trust each other. Have confidence that the issues discussed will be kept in confidence.

5. Listen first to understand, and don't be dismissive of the input received when we listen.

6. Be vulnerable and risk being wrong sometimes. Thoughtful discussion is expected.
