Subject: Survey for Ohio's State Health Assessment

Dear Housing and Homelessness Stakeholders and Partners,

A survey for updating the State Health Assessment (SHA) has been created to gain insights from a wide variety of sectors and stakeholders to identify health-related priorities, strengths, challenges, and emerging trends that will help inform the next iteration of the State Health Improvement Plan (SHIP). This is your opportunity to provide input with the value and experience you possess while adding a voice to the individuals you serve. Please see the attached letter from Dr. Vanderhoff, Director, Ohio Department of Health for the link to the survey. A copy of the questions is attached for your review.

We encourage you to forward this request to your staff, stakeholders, committees, and coalitions. The survey will remain open until February 24th.

Thank you so much for all your continued work that you do in Ohio's communities.

Laura Rooney, MPH

Department of Health

Mike DeWine, Governor
Jon Husted, Lt. Governor

Bruce Vanderhoff, MD, MBA, Director

January 13, 2023

Dear Stakeholders:

The Ohio Department of Health (ODH) has contracted with Ohio University in partnership with the Ohio Colleges of Medicine's Government Resource Center, the University of Toledo, and the Health Policy Institute of Ohio to support the update process to update the 2022 State Health Assessment (SHA) and the 2023-2028 State Health Improvement Plan (SHIP).

We are asking stakeholders to complete a survey in order to gain insights from a wide variety of sectors to identify health-related priorities, strengths, challenges, and emerging trends that will help inform our efforts. We are interested in learning about the health outcomes and health factors you continue to see as a priority and what new outcomes or factors you would elevate to a priority level. The stakeholder survey uses the structure of the SHIP framework which identifies key factors that shape health and well-being and health outcomes prioritized in the 2019 SHA.

This [survey](#) is open to all stakeholders interested in improving health and quality of life in Ohio. Please complete it by Thursday, February 24th, 2023.

In addition to the survey, guided discussions are being held with organizations that serve vulnerable populations and individuals with lived experience. A secondary data analysis is being conducted to identify trends across health outcomes and factors that impact health. Key findings and conclusions of these primary and secondary analyses will help inform the selection of priorities that will be included in the 2023-2028 SHIP.

You may be interested in reviewing the 2020- 2022 SHIP which can be found on the ODH website at <https://odh.ohio.gov/static/SHIP/2020-2022/2020-2022-SHIP.pdf>.

Thank you for participating in this survey. Please feel free to share it within your organization and with any other organizations that you believe can provide important insights for the SHA and SHIP. Your responses will be kept strictly confidential and only reported as part of aggregated information and data.

Sincerely,

Bruce Vanderhoff, MD, MBA
Director, Ohio Department of Health

Survey for State and Local Organizations

Dear Stakeholders:

The Ohio Department of Health has contracted Ohio University in partnership with the Ohio Colleges of Medicine's Government Resource Center, the University of Toledo, and the Health Policy Institute of Ohio to engage in an updating process to develop the 2022 State Health Assessment (SHA) and the 2023-2028 State Health Improvement Plan (SHIP).

This survey is part of a larger process to gather insights from stakeholders from a wide variety of sectors to identify health-related priorities, strengths, challenges, and emerging trends for the state. A separate effort will consist of focus groups to hear from organizations that serve vulnerable populations and individuals with lived experience. As these feedback sessions are taking place, a secondary data analysis is being conducted to identify the trends across health outcomes and factors that impact health. Key findings and conclusions of the primary and secondary analyses will help inform the selection of priorities that will be included in the 2023-2028 SHIP.

This survey is open to all stakeholders interested in improving health and quality of life in Ohio.

The 2020- 2022 State Health Improvement Plan can be found on the Ohio Department of Health website at <https://odh.ohio.gov/static/SHIP/2020-2022/2020-2022-SHIP.pdf>. The survey uses the structure of the SHIP Framework that identifies key factors that shape health and well-being and health outcomes that were prioritized within the 2019 SHA. We are interested in learning what health outcomes and health factors you continue to see as a priority and what new outcomes or factors would you elevate to a priority level?

Thank you for your participation. Please feel free to share this survey within your organization and with any other organizations that care about the health of Ohioans. Your answers will be kept strictly confidential, and all results will be reported in the aggregate.

1. Please tell us what organization you are representing. _____ (this is a text box for open-ended response)

2. What sector does your organization work within? (A dropdown list of sectors provided, select one response)

- Aging
- Behavioral Health
- Business
- Community Based Organization
- Community Clinic
- Community Foundation/Philanthropic Organization
- Community Organizing/Advocacy Organization
- Disabilities
- Education
- Employment and Workforce
- Environmental Public Health
- Health Insurance or Medicaid

- Hospital
- Housing
- Law Enforcement
- Legal Services
- Local Health Department
- Mental Health and Addiction
- Recreation
- Religious Organization
- Transportation
- Volunteer Organization
- Other Health Care Provider
- Other Public Health Organization
- All Other

3. Please indicate the counties your organization serves. (Dropdown list provided; hold control key to select multiple counties)

- All counties
- Adams County
- Allen County.....
- Wyandot County

The following is a list of priority health outcomes from the State Health Improvement Plan that was created in 2019. The state tracks data about these outcomes in order to determine whether the health of Ohioans is improving.

(This Figure is positioned on the left so participants completing on their phone will see it.)

4. Based on the list above, what are the top three priorities for your organization and the people you serve? (Dropdown list; respondents must choose 3 responses)

- Depression
- Suicide
- Youth drug use
- Drug overdose deaths
- Heart disease
- Diabetes
- Childhood conditions (asthma, lead)
- Preterm births
- Infant mortality
- Maternal mortality

5. What other health outcomes should be on this list? _____
(this is a text box for open-ended response)

6. Are there health outcomes on this list that should no longer be a priority for the state? If so, please select all that apply. (Dropdown list; respondents must choose one or more responses)

- No, all outcomes should remain a priority
- Depression
- Suicide
- Youth drug use
- Drug overdose deaths
- Heart disease
- Diabetes
- Childhood conditions (asthma, lead)
- Preterm births
- Infant Mortality
- Maternal mortality

The following list contains cross-cutting **priority factors** identified in the state’s Strategic Health Improvement Plan. These are factors that impact the health of all Ohioans.

Community conditions

- Housing affordability and quality
- Poverty
- K-12 student success
- Adverse childhood experiences

Health behaviors

- Tobacco/nicotine use
- Nutrition
- Physical activity

Access to care

- Health insurance coverage
- Local access to healthcare providers
- Unmet need for mental health care

(This Figure is positioned on the left so participants completing on their phone will see it.)

7. Please rank the following factors based on their importance to the people you serve.

	Very Important	Moderately Important	Neutral	Low Importance	Not at all important
Housing affordability and quality	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Poverty	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
K-12 student success	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>		
Adverse childhood experiences	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Tobacco/nicotine use	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nutrition	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Physical activity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Health insurance coverage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Local access to healthcare providers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Unmet need for mental health care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. The goal of the State Health Improvement Plan (SHIP) is to allow people to achieve their full health potential. To further reduce inequities within the SHIP Framework, issues must be addressed. Please rank in order of importance the following determinants of health that will help people achieve their full health potential:

- Ability to obtain quality education
- Access to quality healthcare
- Access to safe neighborhoods
- Availability of social services
- Employment and working conditions
- Quality food and housing

Thank you for providing information about the important health priorities for the people you serve. Please complete the following series of additional questions.

9. What other needs or issues do you see emerging within the constituents you serve? _____
(open-ended text box)

10. How has COVID-19 changed the issues or needs? _____ (open-ended text box)

11. What specific populations do you serve? (Dropdown menu; choose all that apply)

- Amish
- Appalachian Residents
- Black/African American – Men ages 22-64
- Black/African American - Pregnant Women
- Black/African American - Young Adults
- Children and adolescents
- Hispanic/Latino (non-immigrant)
- Immigrant or newly arrived populations
- Individuals with behavioral health challenges
- Individuals with disabilities
- Individuals needing housing, transportation, and food supports
- LGBTQ+

- Low educational attainment
- Low Income
- Older adults
- Rural residents
- Veterans
- Women who are pregnant/postpartum
- Other

12. From your experience, expertise, and available data, which groups have the worst health outcomes in the county (counties) your organization serves? (Dropdown list; choose all that apply)

- People with low incomes
- Residents of rural areas
- Residents of Appalachian areas
- Residents of urban areas
- African-American/Black
- Hispanic/Latino/Latina
- Other racial or ethnic minorities
- Immigrants or refugees
- People with disabilities
- Sexual and gender minorities
- Other

13. If you are interested in receiving updates on the development of the SHA/SHIP, please provide your email address. _____ (open-ended text box)
