Office of Health Opportunity Mission

Ensuring All Ohioans have a fair and Just opportunity to thrive

Ohio Department of Health

Office of Health Opportunity Key Objectives

1 Establish equity as a pillar of Ohio's public health system.

2 Improve clinical experiences and outcomes for the most vulnerable.

3 Elevate and address the social determinants of health, by impacting upstream social and community conditions of health.
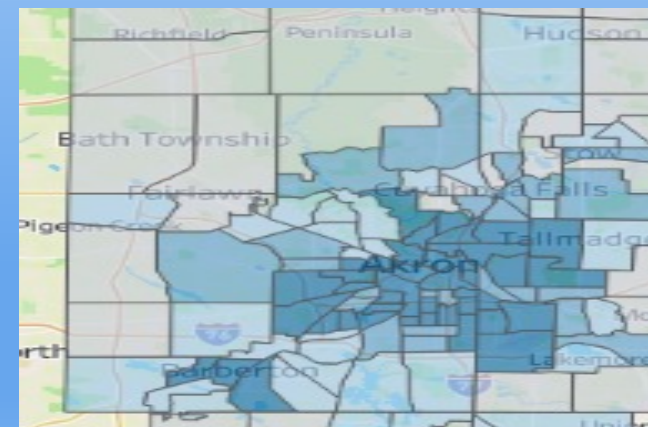

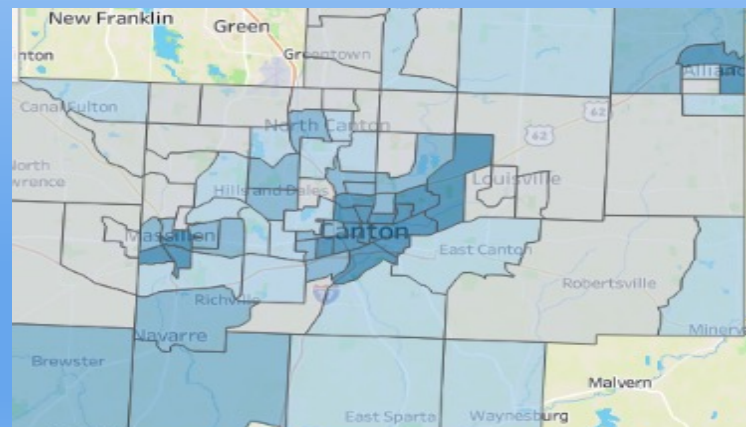

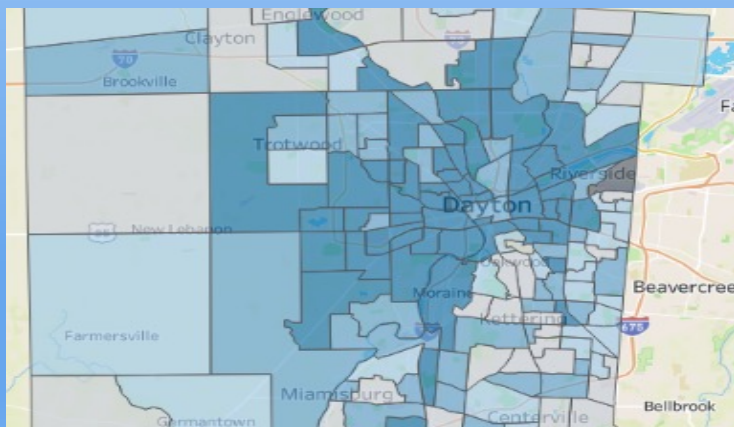

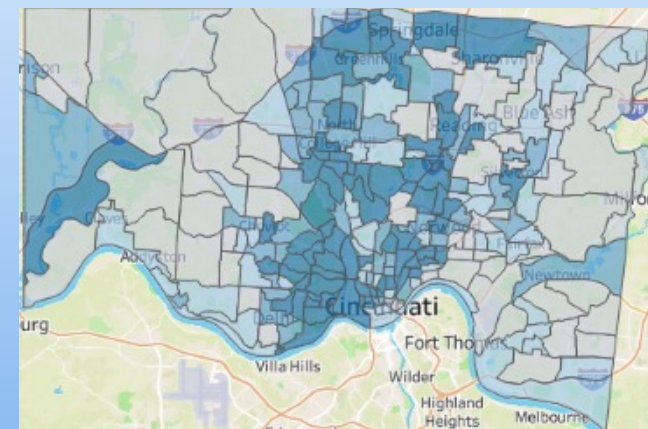

4 Ensure an equitable response to COVID-19.

Ohio Health Improvement Zones

- Identify communities with specific risk factors
- Better understand community risks and strengths
- CDC SVI score of $\geq$.75
- Examples
  - EP
  - Tornados

- Close the distance!
    - Mobile or Drop-in Clinics.
    - Home visiting programs.
    - Healthcare screenings.
    - Medicaid enrollment.
    - Linkages to community resources.

Ohio Department of Health

Improving Education Access and Quality

- Support increased access to high quality preschool and childcare.
- Collaborate with schools and local stakeholders to facilitate equitable access physical and mental health services.
- Increase capacity to address public health concerns in the school environment.
- Increase awareness of the connection between education and health.

Ohio **Department of Health**

Improving Social and Community Experiences

- Interventions to help people get the social and community support they need are critical for improvement health and wellbeing.

- Build on assets that are already found in the community and mobilize to come together to build on assets and not concentrate on their needs.

- Engage residents of the communities you aim to serve.

- Leverage partners across sectors to reduce duplication and support collective impact.
